

Paul is the Highway Superintendent and landfill Supervisor for the Town of Camillus, NY since January 1, 2015. He has an Associate Degree from Alfred State College - 1983 and is a Certified Professional in Erosion Sediment Control (CPESC) and a Certified Professional in Stormwater Quality (CPSWQ) and is the Vice Chairman for the CNY Stormwater Coalition. He also has Professional Registrations from the National Institute for Certification in Engineering Technologies, Highway Design - 1990 (NICET) and American Traffic Safety Services Association - Certified Work Site Traffic Supervisor (ATTSA), and is a past member of the American Public Works Association (APWA) and New York Water Environment Association, Inc. (NYWEA).

Paul has more than 30 years of experience in Highways and related fields of expertise. He had been employed at Barton & Loguidice engineers for 22 years, leaving as an Associate Project Manager, prior to his recent 5 year employment with Onondaga County as their Program Coordinator for Stormwater Management where Paul was responsible for all aspects of the County's stormwater regulatory compliance. He also served as the project manager for the "Save the Rain" program, having oversight of design, detailing, consultant coordination and grant programming.

Paul's approach to the serving as Superintendent is his mission statement: ***"To Provide the Town of Camillus Tax payer a continual maintained roadway and drainage system, utilizing an efficient cost effective approach."*** Please visit the Town of Camillus Highway Web page at: <https://www.camillushighway.com>
