

Fall is almost upon us and Winter will be knocking on our door!

Before you know it the fall leaves will be on the ground and the piles will line the streets. When raking your leaves this fall please remember not to pile them in the roadway, since they may

cause an accident or block emergency vehicles from gaining access to your neighborhood. To make our job go faster and provide you with the best service, please pile sticks and other debris separate from your leaves since they clog the leaf vacuum.

Leaf pick up routes will generally follow the same order as our brush routes. Please refer to the interactive map on the Highway Web page to find out more information....

Before Snow Season, Please bring in your expensive mail boxes, we only replace mail boxes damaged by our plows with a standard mailbox. ~Thank you

Notes from your Highway Superintendent

The cool crisp air of fall is soon to be here, Please drive carefully; School has started and buses will be stopping to pick up children...

As we wrap up our summer maintenance projects, our focus will return to closing up any pot holes or open work areas before the end of the construction season. Many roadway and drainage projects have been completed this season. However, we do understand that there are many more areas in need of repair. We will evaluate

the entire roadway system early next spring to prioritize work zones based on need.

As a reminder, please bring in your expensive mailboxes before the winter, we only replace broken mail boxes damaged by our plows with a standard mailbox.
